## The Scientific Method

4

## **William Paley's Argument from Design**

- Watches are intricate machines well suited for measuring time.
- Therefore, watches have an intelligent designer.
  
- Life is like an intricate machine well suited for survival and reproduction.
- Therefore, life has an intelligent designer.

5

## **David Hume's Weak Analogy Objection**

- Watches have evidence of design
  
- Watches and life are NOT similar,  
a living being is not a machine
  
- Therefore life need not be designed

The DIT is the Basic UNIT of Length.  
 The DAH is equal in length to three DITS.  
 The space between the DITS and DAHS in a character is equal to one DIT.  
 The space between characters in a word is equal to three DITS.  
 The space between words is equal to seven DITS.

## The Physics of Information

The Real You...

...is software, not hardware

...has no mass

...has no time dimension

You are eternal!

whether you like it or not

Where will you spend eternity?
